To whom it may concern,

As a company providing maritime security services, we had the pleasure to cooperate and assist the RSB-Group, a private military service company in Russia, for meeting mutual business contracts for anti-piracy marine services. Especially Mr. Oleg Krinitsyn, CEO of the RSB-Group, a true professional in his field with a wealth of security experience and as a reliable businessman, is a invaluable expert for working with and his company.

RSB-Group anti-piracy services were performed with the utmost professionalism, by hand selected personnel, who understand the fundamentals in doing the job right.

I recommend the RSB-Group without restriction to anyone in need of complete and solid services.
